

## Wolfgang Cordes Stiftung Kinder in Not

PATENGEMEINSCHAFT FÜR  
HUNGERNDE KINDER E.V.

On October 26, 2006, the Wolfgang Cordes Stiftung – Kinder in Not was established by Wolfgang Cordes. The foundation focuses on child assistance projects world-wide. Currently it is engaged with the project “Support for Pre School Children” in India. Thanks to the work of Wolfgang Cordes Stiftung – Kinder in Not, children are assisted early and bolstered in their development. The boys and girls receive an introduction to education, and with that the prospect for a self-made future. This project is carried out by **Plan International**.

In 2012 another project was implemented: a study center for kids was built in which children and teenagers have a place to work together, to do their homework and to study at a quiet place. Previously they had no permanent place for these activities and they mostly used the roadside to do them. The study center also offers training courses, and in the future it will also have more study materials, so that the children will have an optimal environment in which to learn. A huge thanks also to the sponsorship community “**Patengemeinschaft für hungernde Kinder e.V.**”, they have initiated and completed the project and take care of additional supervision activities.

Please support the work of the foundation

### Extract from the Statutes

The „Wolfgang Cordes Stiftung – Kinder in Not“ wants to shape a world in which children experience no poverty and can grow and develop freely and healthily. A world in which children are handled with dignity and respect. Therefore the needs, rights, and desires of the children are at the heart of everything the foundation does.
